B.L.E 3.85 GPA | 2019

Gurukul Academy

S.E.E 3.65 GPA | 2021

Gurukul Academy

+2 Science | 2024

About Me

Experienced Front End Web Developer with a strong background in HTML, CSS, and JavaScript, and proficiency in modern frameworks like React (basics) and Tailwind CSS. Additionally, learning Python for Data Structures and Algorithms & Node JS. Passionate about staying up-to-date with industry trends and continuously improving my skills to deliver high-quality results.

PROJECTS

- **E-Commerce Site:** <https://shoptifyshopping.netlify.app/>

Creating my e-commerce website was an exciting journey. I began with market research to understand customer needs and then designed a user-friendly interface using HTML, CSS, and JavaScript.

- **Food Website:** <https://quickbitetest.vercel.app/>

I designed a visually appealing interface using HTML, CSS, and JavaScript. I experimented with various JS animation libraries. Although the site is not responsive, I ensured a smooth browsing experience on desktop by implementing key features.

- **YouTube Clone:** <https://github.com/maybesabin/YouTube-Landing-Page>

Creating this project was really fun to work on. I made this project while learning react js & tried experimenting with different react components.
